

Central Workshop

[Exhibition of Processing Samples and Introduction of Machine Tool Equipment]

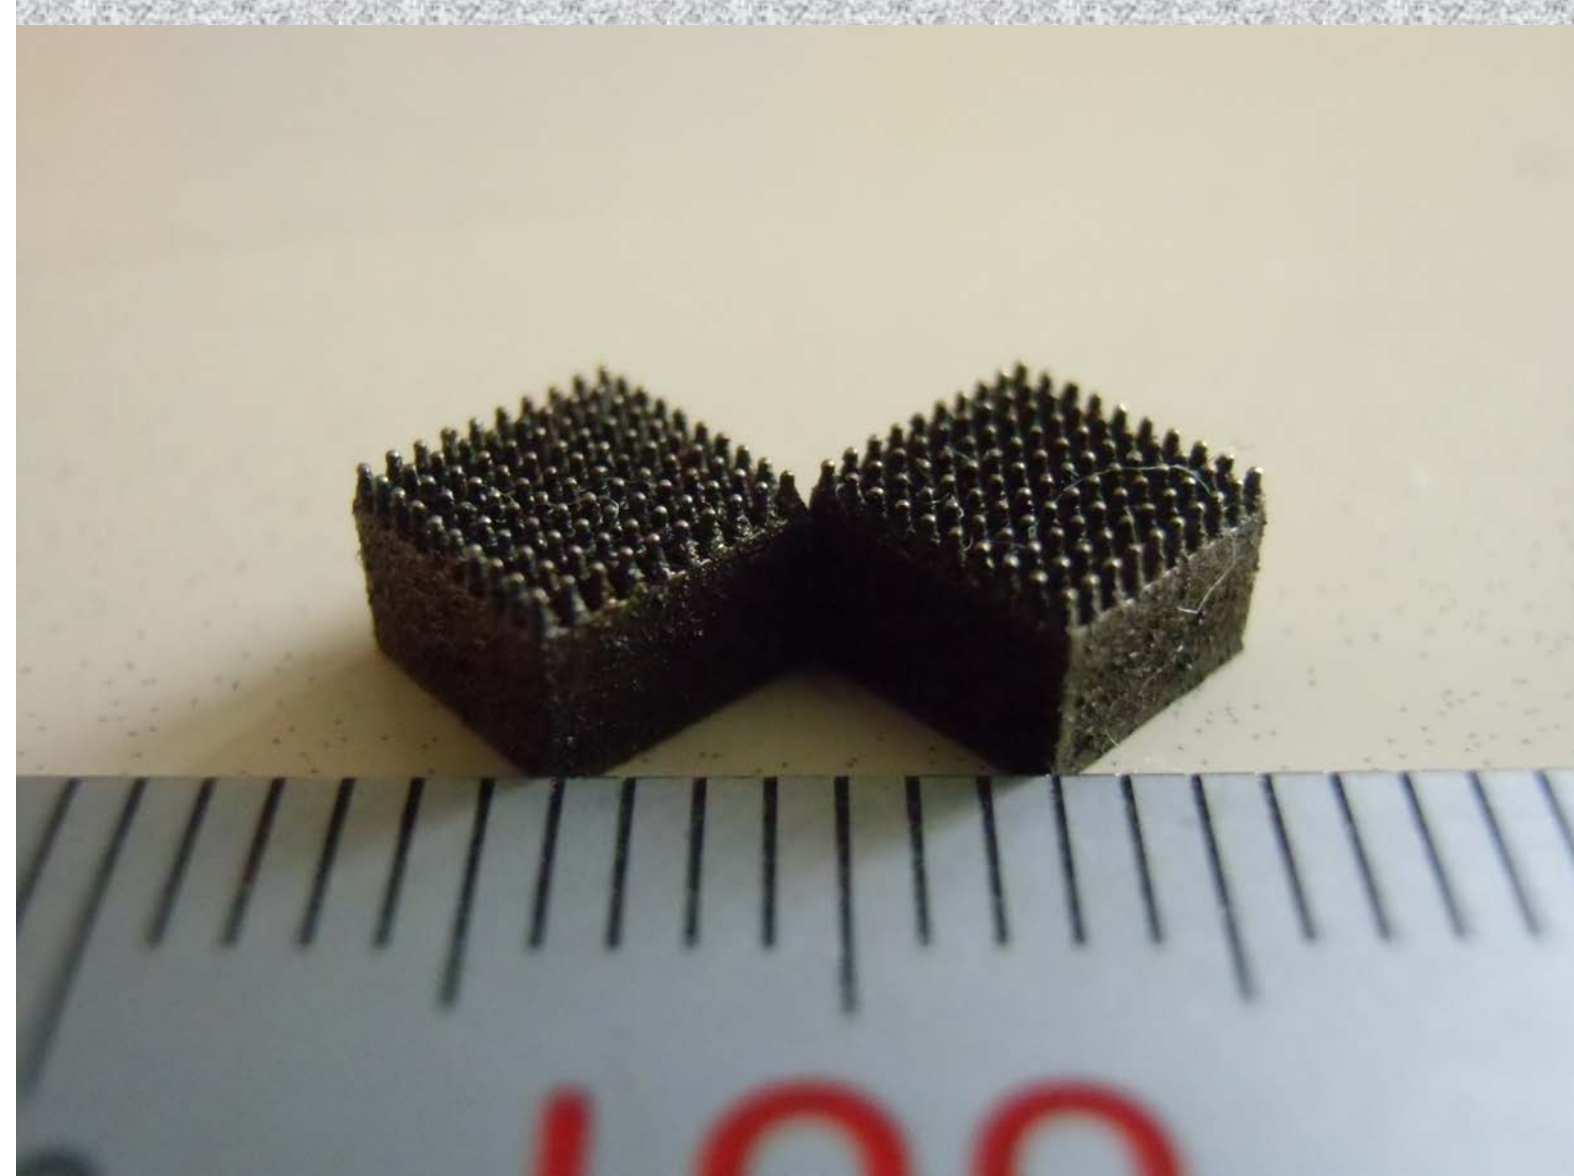

Utility Department

Machine tools, glass tools

<http://www.iis.u-tokyo.ac.jp/~shisaku/>

Kenzan Parts

Brain surgery
tremor Equipment

Sample Vacuum
Encapsulation

「Artisan Skills」

In the prototype factory, engineers who have studied in various scenes are working on the development, production, and remodeling of experimental equipment and specimens that meet the demands of researchers by utilizing various machine tools such as machining centers, turning centers, and EDM machines.
