

SNG GROUP

The Scientists for the Next Generation!

<http://sng.iis.u-tokyo.ac.jp>

What's SNG? 'The **S**cientist for the **N**ext **G**eneration !' is a program designed by the Knowledge Dissemination Unit (KDU) at the IIS.

Aim : Promotion of interest and awareness of science and technology among the younger generation

School Outreach Program

- The IIS faculty and staff members visit several schools and interact with the students.
- These activities provide opportunities for students to understand school-level mathematics and science in cutting-edge research and technology through hands-on experiments based on research conducted at the IIS.

Open House of Komaba Research Campus for Junior High and High School Students
