

Technical Assistant Educational Opportunities Committee

The Activity Report of Technical Assistant Educational Opportunities Committee

In IIS about 70 members of technical assistant work. We acquire technical high specialty and improve it and, for the purpose of what we succeed to, receive individual training from 1991 and hold technical announcement meeting from 1992. We are demanded higher technical level.

◆ Individual Training

This individual training started on 1991. 8~29 application forms are accepted every year and the average of 15 training theme is carried out.

There are many types of application, for example, to acquire a qualification, to participate in the international meeting and to develop the measuring equipment.

◆ Technical Announcement Meeting

This meeting started on 1992. The average of 12 theme per year is presented. There are many types of performance like the individual training.

After IIS moved to Komaba II, all technical assistant staff to work in Komaba I & II can gather and hold meeting.

This meeting is very important as the place to interchange the technical methods and useful information.
