* Common Facilities

Introduction to "IIS network facility" and "Computer Center systems"

Computer Center provides IIS Researchers
with comfortable research environment such as,

● Operating "RESEARCH INFRASTRUCTURE,
  i.e. High-speed Networks and Computing Systems".

● Designing, Evaluating, Installing
  "CUTTING EDGE TECHNOLOGIES".

Main Routers connected via 10GbE !

Full Redundant Connectivity b/w
Main Routers and Floor Switches !

Every Network Outlet provides 1GbE !

Main Facilities (Network, Computation)
are powered with Backup Power supply.
Even if at a blackout, They can work over
4 hours w/o outage !

Authentication, VLAN services
provides Seamless Connectivity

We also provide several optional services, ex) security enhanced services,

such as firewall service, virus protection service, etc.

Detailed introduction will be held at Ce-204 (Server Room). Please visit us !
