

YOSHIOKA LAB.

Controlled Precision Machining

Department of Mechanical and Biofunctional Systems

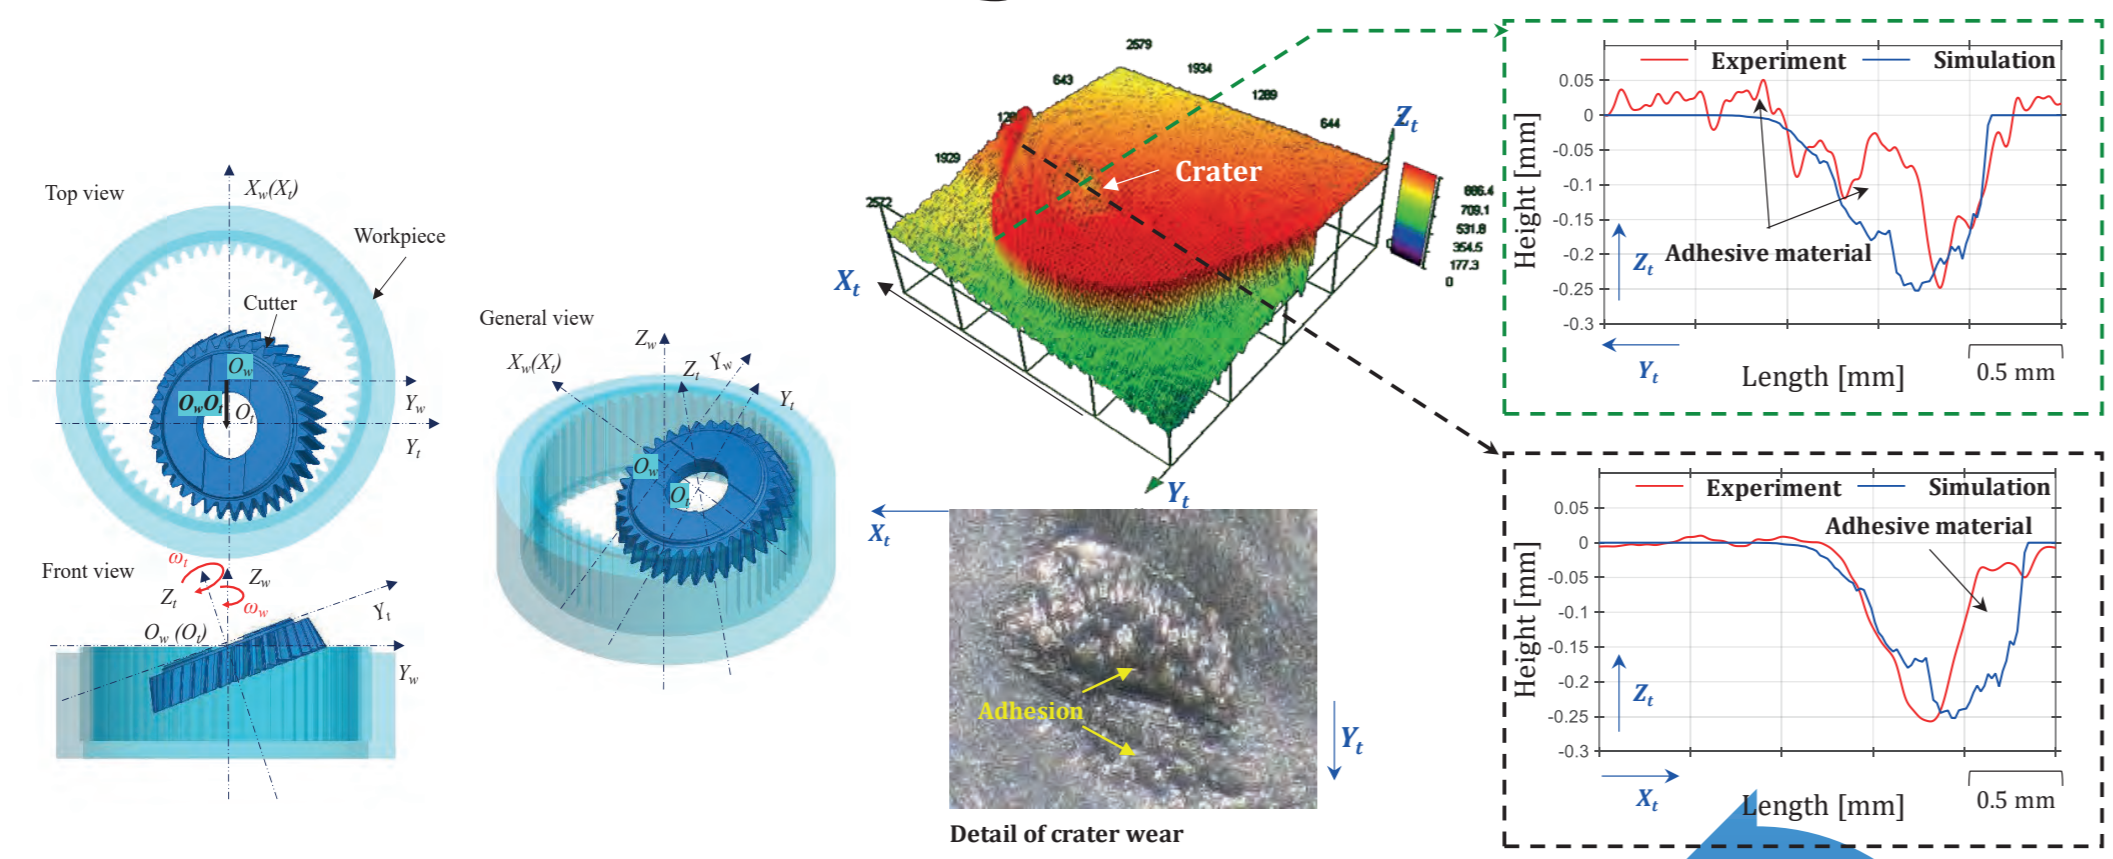

Production Engineering

Department of Mechanical Engineering, Graduate School of Engineering

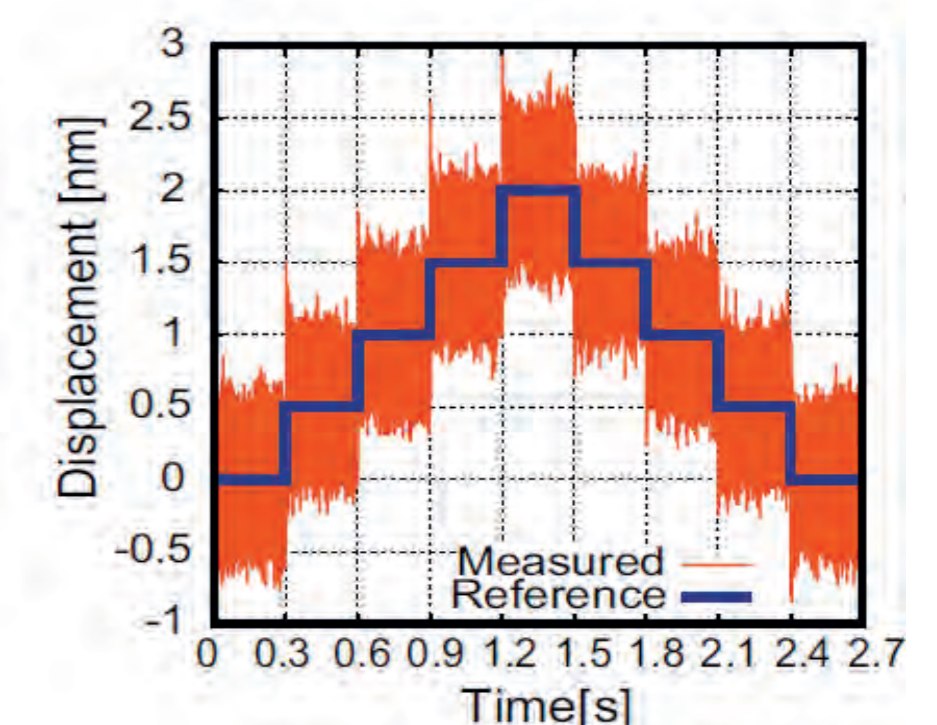

<https://yoshioka-lab.iis.u-tokyo.ac.jp/>

- Realization of Advanced Machining Technology
- Control of Machining Factors nearby Machining Point

Gear skiving simulation

- Motion modeling
- Tool wear prediction

Ultraprecision Motion Control

- Nanometer position
- Ideal Mechanical Structure

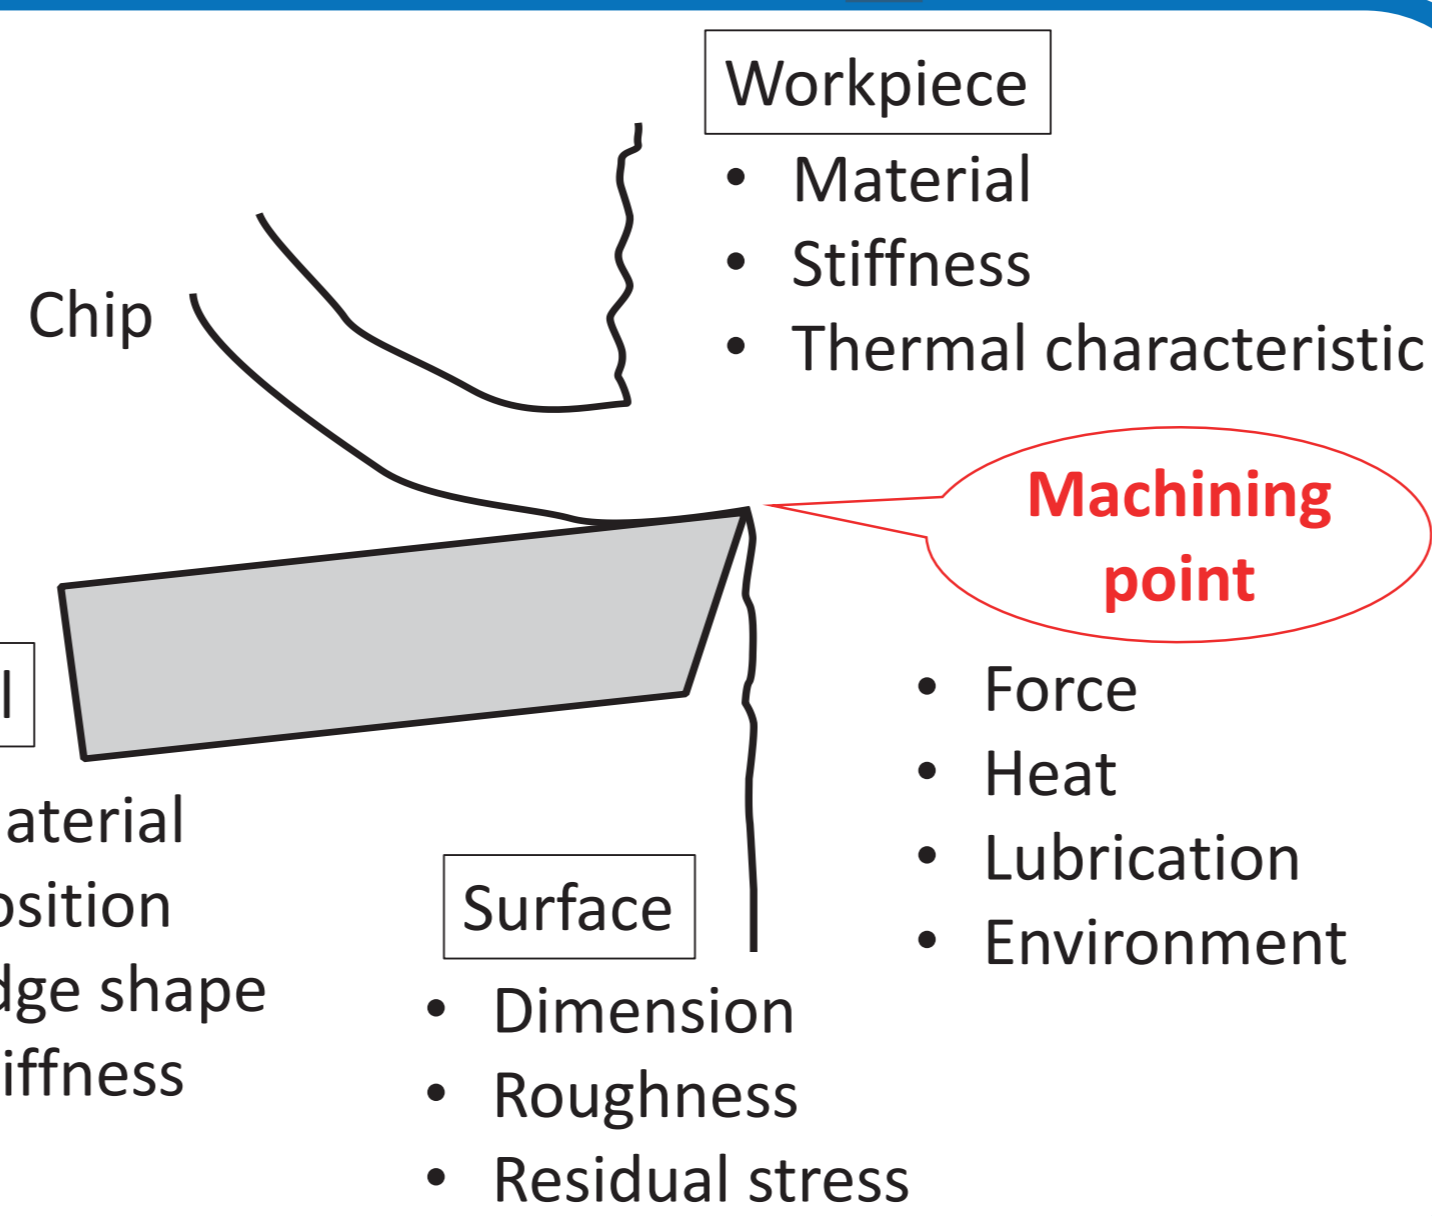

Flexible machining system

- Non-specialized jig machining
- Automated production systems

- Scheduling optimization
- Quantum Annealing Computation

Ultraprecision Machining System

- Multi-axis nanometer positioning
- High Stable Mechanical Structure

Fast Tool Servo for Milling process

- Axial Positioning of Cutting Tool
- Texturing on Curved Surface
