Light for the Sea, Adventures for the Robots

Center for Integrated Underwater Observation Technology

Underwater Platform Systems

Department of Ocean Technology, Policy and Environment, Graduate School of Frontier Sciences

<http://makilab.iis.u-tokyo.ac.jp>

We are developing new systems for underwater observation by means of latest techniques of robotics and informatics. These systems will be able to realize wide-area, high-accuracy, and long-term observation through collaboration of multiple autonomous agents, for example, autonomous underwater vehicles (AUVs).
